Managing Users

- Manually add users
- Import users from CSV (AD Export)
- Synchronize with Microsoft Entra ID

The screenshot shows the 'Administration' section of the Tungsten Automation console. The left sidebar contains links for 'Tenant details', 'User management mode' (selected), 'Contact information', and 'Administrators'. The main content area is titled 'Administration > User management mode'. It features a 'Change user management mode' section with a dropdown menu currently set to 'Select a user management mode'. A warning box explains that changing the mode deletes all existing users. Below this, there is a checkbox 'I understand the effects of changing user management mode' which is checked. A 'Save' button is visible. The 'Authentication types' section lists 'Tungsten ID', 'Google', and 'Microsoft Entra ID' with checkboxes. A red error message states 'You must select at least one authentication type.' and a 'Save' button is at the bottom.

The top screenshot shows the 'Add users to Power PDF Advanced Volume' dialog. It includes a close button (X) and an information icon (i). A note states: 'If you need to add a large number of users, go to the Product tab and click Add users by CSV.' There is a checkbox for 'Send email notification to newly added users.' Below, the '1. User Details:' section shows input fields for 'Email' (Nick.Litwinetz@kofax.com), 'User name' (Nick Litwinetz), and 'Description (optional)' (Sales Department), with a 'Remove' link. A '+ add more user' link is also present. At the bottom are 'Add user(s)' and 'Cancel' buttons.

The bottom screenshot shows the 'Add Power PDF Advanced Volume users by CSV' dialog. It has a close button (X) and a title bar. The text explains: 'Uploading a comma-separated values (CSV) spreadsheet is a way to add, remove, and edit many users at the same time.' It includes 'step 1' (To get started, download the CSV template. Enter the email address, and optionally the name and a description, for the users you want to add.) with a 'Download CSV template' button. 'step 2' (Upload the CSV file below.) includes instructions on file size and a 'Choose File' button. At the bottom are 'Cancel' and 'Upload and add users' buttons.

Licensing Comparison

Power PDF Advanced Volume Licensing Options

Serial Number

- Traditional way of licensing PPDF
- Single key is used for all devices
- No activation or tracking
- Self-Auditing required

TALS

- Tungsten Licensing Server
- On-prem licensing server required
- License is activated and users are tracked and restricted

CLS

- Cloud Licensing Server
- Tungsten hosted
- Cloud Authentication via Azure AD/Google

Tungsten Licensing Options

Serial Number	Perpetual	TALS	CLS
Perpetual Option	✓	✓	✓
Term Option	X	✓	✓
Server Requirement	None	Customer Managed Server	TA Hosted Cloud Server
SN License Type	Perpetual	Server License	Server License
Compliance	Self-Audit	Automatic Compliance	Automatic Compliance

Pricing options

- Perpetual with M&S
- Term - 1,2,3-year term options

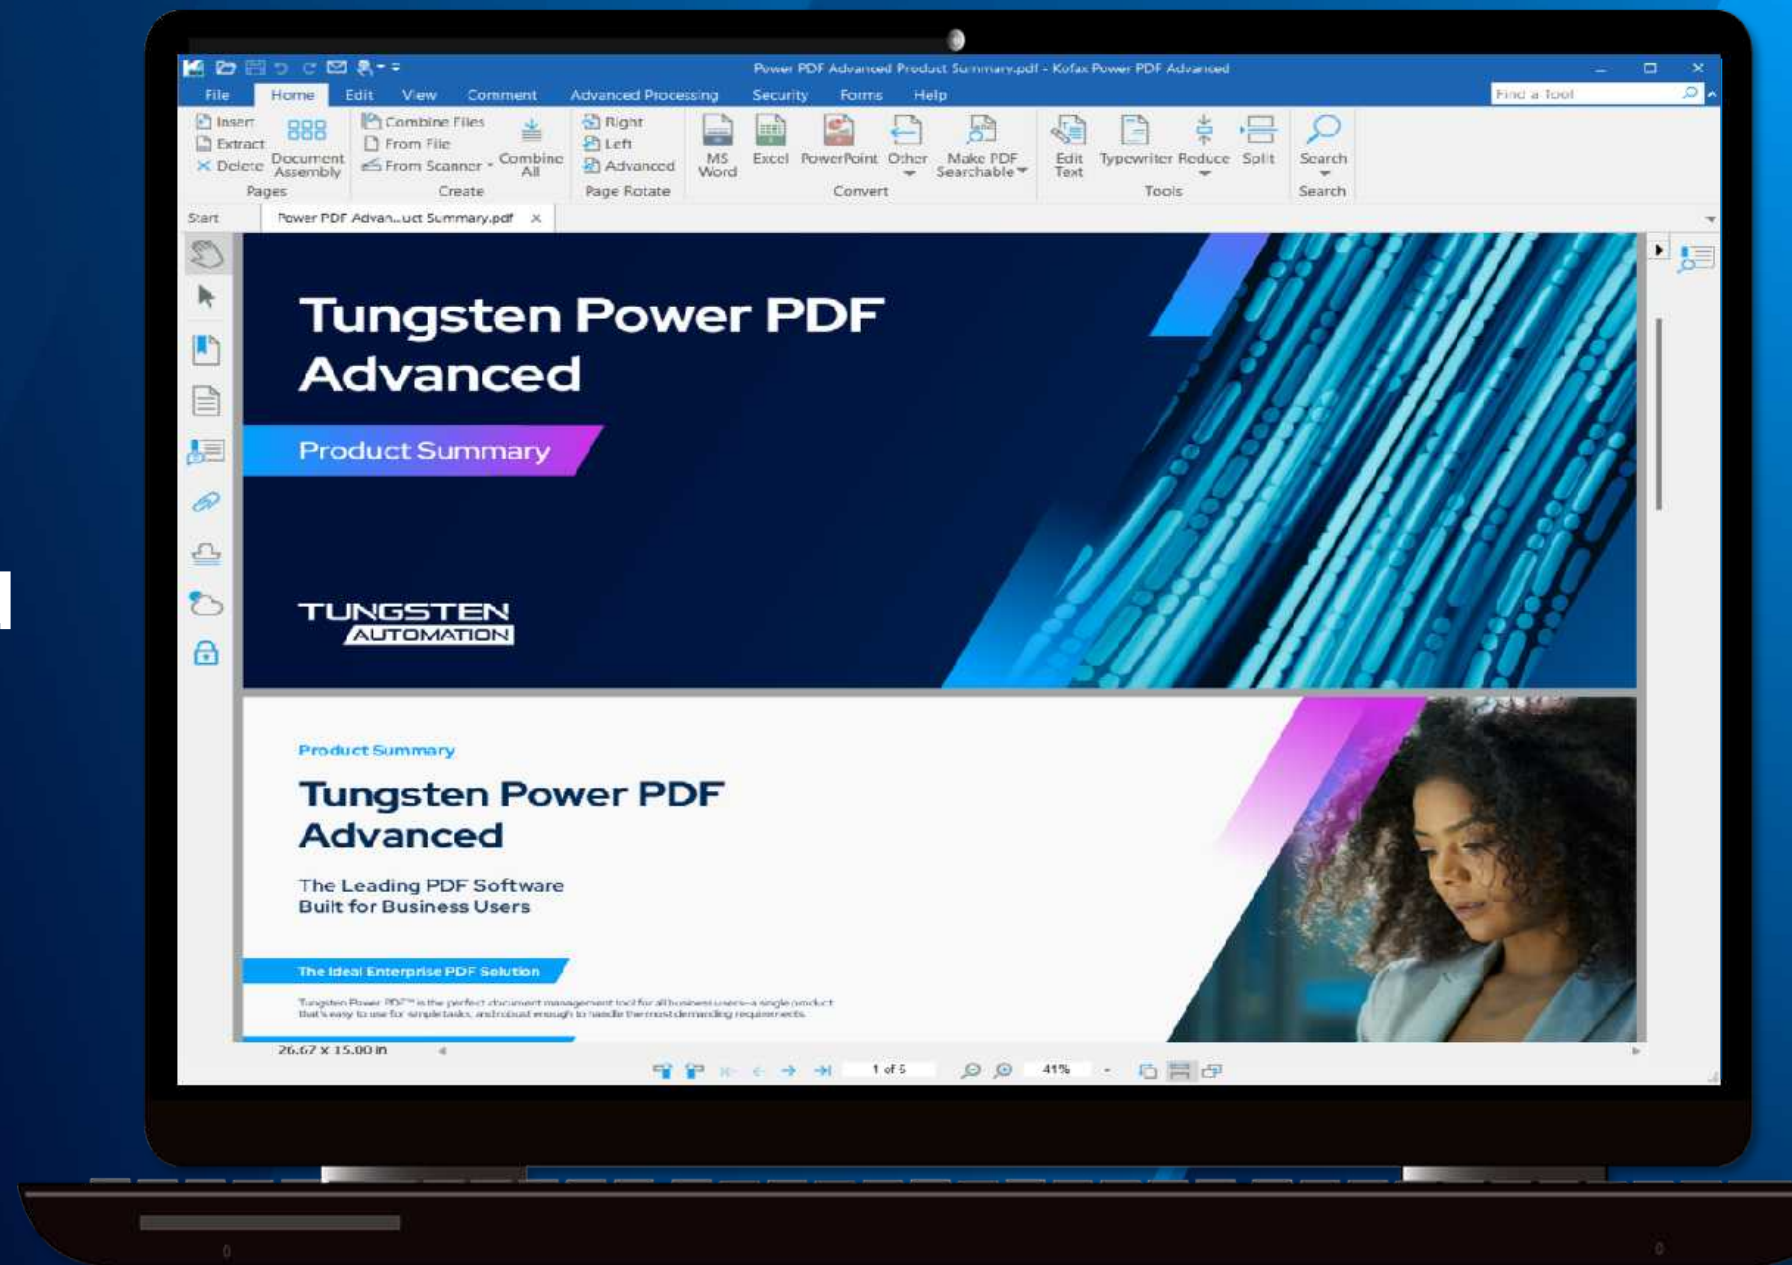

Additional notes

- Perpetual CLS only available for customers under M&S

Kofax Power PDF

★★★★☆ 4.5 (214) Write a Review!

Tungsten Document Productivity

Recognition in '23 as the Top Rated for the 3rd Consecutive Year

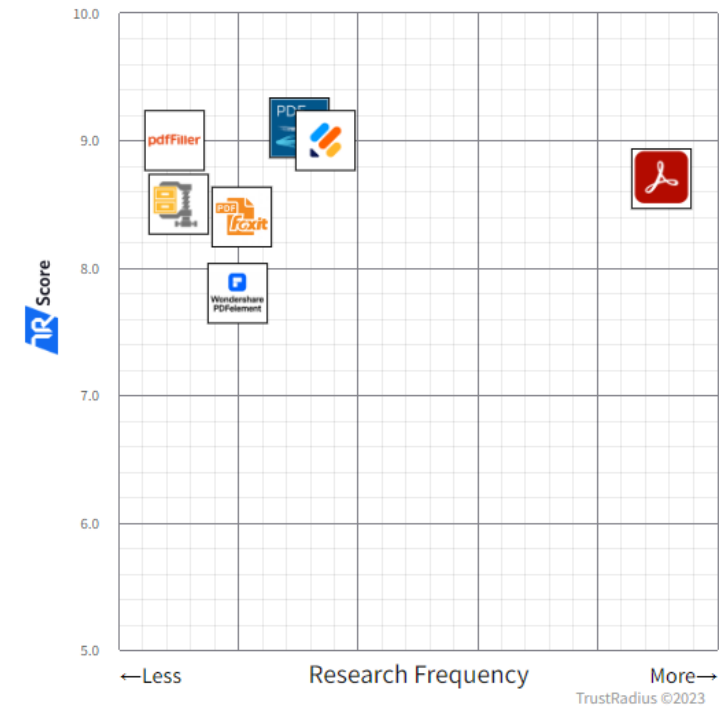

"We use Kofax Power PDF to create our proposals, contracts, reports, and other business related documents. Many of our reports have text, pictures, and diagrams. Being able to make edits on the go is great. All of our employees use it daily and PDF's are sent regularly to our customers and vendors as well as receive PDF's from them."

We use Kofax Power PDF (PPDF) for all our PDF needs. It does all the things we need done and hundreds of other tasks beyond what we regularly use. It is intuitive and easy to learn."

"This is a product I had used at my previous organization. When I came to my current organization, they used a free online PDF product which worked ok but was very time consuming. I do a lot of combining of PDF's and changes to PDF's and Kofax Power PDF handles these items much smoother than the free online PDF program did."

PDF Editors TrustMap

Based on 4,121 ratings and trailing 30 days of page views on www.trustradius.com through 12/13/2023.

10 Reasons Why Customers Choose Power PDF

1 **Intuitive GUI**
Menu navigation based on MS Office 365

3 **ISO-Standard Compliance**
As a PDFA-member we contribute to the future PDF roadmap

5 **Powerful OCR Engine**
Award winning Tungsten OmniPage™ built-in

7 **Automated PDF Workflows**
Batch processing via Sequencer

9 **Network/Offline Installation**
Convenient deployment options

2 **Attractive Pricing**
Very high value for money

4 **Versatile Licensing Model**
Perpetual or term volume licenses available

6 **AI-Driven Search**
Fuzzy Search forgives typos and spelling errors

8 **High Security Standard**
Encryption, permission control, digital signatures

10 **Creation of Accessible PDFs**
Fully PDF/UA compatible

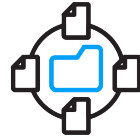

Where Power PDF is Superior to Adobe Acrobat

Simplified Licensing

- Term and Perpetual
- Reduced security concerns / Confidentiality
- Simple and easy license management

Version Clarity, Visual Comparison

- Designed for knowledge workers
- Tracking and version control

Maximized Value, Minimized Cost

- A comprehensive suite of PDF tools
- 50-70% less \$\$ with comprehensive functionality

Easy to Learn Easy to Use Easy to Master

- Intuitive MS Office navigation
- User-friendly design
